Novel Strategies to Improve Shelf-Life and Quality of Foods Santosh K. Mishra, Megh R. Goyal, 2020-11-25 This volume focuses on food preservation prior to distribution and sale, which is a major challenge in the tropical climates of most developing nations. In order to assure that food products are safe for human consumption, due importance must be given to the quality and safety aspects of production, processing, and distribution. This volume provides an informative overview of recent research on the therapeutic potential of various new and natural compounds along with novel technologies for enhanced shelf-life longevity and food safety. It also looks at the antimicrobial constituents of different sources and the history of their use as biopreservatives. It includes scientific evaluations of their use as alternative or potential biopreservatives. Focusing on real-life applications in consumer and food products, the book is divided into three parts, covering health and quality aspects of food preservation, applications of novel biomolecules for quality and safety of foods, and novel research techniques in food biopreservation.

Literacy Is Liberation Kimberly N. Parker, 2022-02-25 Literacy is the foundation for all learning and must be accessible to all students. This fundamental truth is where Kimberly Parker begins to explore how culturally relevant teaching can help students work toward justice. Her goal is to make the literacy classroom a place where students can safely talk about key issues, move to dismantle inequities, and collaborate with one another. Introducing diverse texts is an essential part of the journey, but teachers must also be equipped with culturally relevant pedagogy to improve literacy instruction for all. In *Literacy Is Liberation*, Parker gives teachers the tools to build culturally relevant intentional literacy communities (CRILCs) with students. Through CRILCs, teachers can better shape their literacy instruction by * Reflecting on the connections between behaviors, beliefs, and racial identity. * Identifying the characteristics of culturally relevant literacy instruction and grounding their practice within a strengths-based framework. * Curating a culturally inclusive library of core texts, choice reading, and personal reading, and teaching inclusive texts with confidence. * Developing strategies to respond to roadblocks for students, administrators, and teachers. * Building curriculum that can foster critical conversations between students about difficult subjects—including race. In a culturally relevant classroom, it is important for students and teachers to get to know one another, be vulnerable, heal, and do the hard work to help everyone become a literacy high achiever. Through the practices in this book, teachers can create the more inclusive, representative, and equitable classroom environment that all

students deserve.
